

4th Grade Envision Workbook

"Written specifically to address the Common Core State Standards, enVisionMATH Common Core is based on critical foundational research and proven classroom results. Since enVisionMATH Common Core was built from the ground up to meet the Common Core State Standards, mathematical practices are deeply rooted in the curriculum. These practices promote student success in mathematics. Teach all of the Standards for Mathematical Content within the structure of a program powerful in concept development and grounded on big ideas of mathematics and related essential understandings. This new program develops conceptual understanding through daily Problem-Based Interactive Learning and step-by-step Visual Learning. How do I differentiate instruction? enVisionMATH Common Core shows you. It offers you the right amount of support and challenge for every student"--Publisher.

Your child's ability to instantly spot sight words will dictate how quickly he/she will learn to read and comprehend stories. Sight words are commonly used words that every child needs to be acquainted with. This workbook has beautifully merged illustrations with sentences to make identification of sight words easy to do. Because these are actual sentence examples, children can absorb the concept more effectively. Buy a copy now!

Features high-quality, authentic literature organized around units that develop grade-level science and history/social science concepts. Four reading selections per week at Grade 4 emphasizes comprehension, vocabulary, and writing skills and offer opportunities for cross-textual reading in content areas. "Envision It!" and "Words!" sections provide additional practice with target skills and strategies in a visual format. There is no better way to master a language than to start by tracing. A hybrid between drawing and writing, tracing is a necessary skill that children need to learn. Tracing is also an important tool when developing your child's freehand drawing. Composed of simple to more complex shapes, your child will definitely be spending the next few hours on this book. Grab a copy today!

Mrs. Moo has come to play with you! This engaging book features animals in bold and vibrant colors. They're easy to identify and they teach you how they sound like too! Teaching children animal sounds greatly help in pronunciation. It is also a necessary exercise in preparation for learning how to read. Secure a copy today!

'Oxford International Primary Maths' is a complete six-year primary maths course that takes a problem solving approach to learning maths, engaging students in the topics through asking questions that make them think, and activities that encourage them to explore and practise.

Envision a math program that engages your students as it strengthens their understanding of math. enVisionMATH uses problem based interactive learning and visual learning to deepen conceptual understanding. It incorporates bar diagram visual tools to help students be better problem solvers, and it provides data-driven differentiated instruction to ensure success for every student. The best part, however, is that this success is proven by independent, scientific research. Envision more, enVisionMATH!
