Judy Sheindlin, former supervising judge for Manhattan Family Court. For twenty-four years she has laid down the law as she understands it: ? If you want to eat, you have to work. ? If you have children, you'd better support them. If you break the law, you have to pay. If you tap the public purse, you'd better be accountable. Now she abandons all judicial restraint in a scathing critique of the system – filled with realistic hard-nosed alternatives to our bloated welfare bureaucracy and our soft-on-crime laws.

Returning home, exhausted and empty-handed from a day trip to the Sacramento SPCA, she was leafing through her local paper, when her eye lit upon this ad: "ADULT MALE ROTTWEILER FREE TO A GOOD HOME." The last year had been a crummy one for her. She had to put down her last Rottweiler. She had undergone chemotherapy for breast cancer and had been missing the companionship of a Rottie. For the last twenty-five years, there had always been one in her life. A year had gone by since she had put the last one down, and at the same time finished her chemo treatments. This was not the kind of ad she saw everyday and she felt that this was a special message to her. "I will call first thing in the morning," she thought. This is the beginning of Quinn's story, a truly remarkable dog, who changed her life as much as she changed his. He became part of a new family and met many, many new people who became part of his

Christian McPherson's debut novel *The Cube People* pokes fun at government cubicle culture through the life and times of a struggling computer programmer/novelist wannabe. McPherson surrounds his protagonist, Colin MacDonald, with a cast of screwball characters while he toils away at his government job, struggles with fertility and dreams of becoming a published writer. Recycled air, bad lighting and bizarre environmental office policies by day; scheduled love-making sessions and rejection letters by night, push MacDonald to try to write his way out of his cyclical life story. Part tragedy, part comedy—with a bit of horror thrown in for fun—McPherson cooks up a boiling plot and a memorable anti-hero.

When Colleen Haggerty lost her leg in an accident during her senior year of high school, she could have retreated from life and let her disability become her defining quality—and no one would have blamed her for it. Instead, she went the opposite way. In the years following her accident, Haggerty explored her physical world with vigor, testing the limits of her body by joining a ski team, playing with a co-ed soccer team, and taking up kayaking and backpacking. She also tested the

limits of her heart, pursuing love and passion with restless men. In *A Leg to Stand On*, Haggerty recounts her life as a disabled woman, from redefining herself as a young woman after tragedy—fierce and able, but haunted by hard choices and suppressed grief—to choosing marriage and motherhood. That choice comes at great cost to the physical freedom Haggerty has fought for, but ultimately she redemption, fulfillment, and self-acceptance in the bargain. No one will read this book without being inspired to accept their past and create the future they always wanted.

Partially autobiographical, this translation of the Spanish *Patas de Avestruz* is a masterpiece of introspective, linguistically innovative fiction about the relationship between two sisters—one severely handicapped, the other gifted yet overlooked. Mariana is four years older than her sister Alcira, but Mariana is seriously disabled and slowly dying. Conveying the experience of a physically messy process, this account points out the flaws in adult society through the point-of-view of its child protagonist. At its core, the novel is about the abuse of power and its consequences—whether that abuse is by a government, a parent, or a child.

Ten million children in the United States—two million of them preschoolers—suffer from anxiety.

Anxious children may be afraid to be out of their parents' sight; they may refuse to talk except to specific people or under specific circumstances; they may insist on performing tasks such as brushing teeth or getting ready for bed in a rigidly specific way. For many children these difficulties interfere with doing well in school and making friends as well as with daily activities like sleeping, eating, and bathing. Untreated anxiety can have a devastating effect on a child's future emotional, social, academic, and work life. And since most kids don't naturally outgrow anxiety, parents need to know how to help. In *Calming Your Anxious Child*, Dr. Kathleen Trainor builds on cognitive behavioral therapy to provide practical steps for guiding parents through the process of helping their children manage their anxieties and gain control over their worry-based behaviors. Dr. Trainor's method involves identifying the anxieties and the behaviors, rating them, agreeing on what behaviors to work on changing, identifying strategies for changing behaviors, noting and charting progress, offering incentives, and reinforcing progress. Combining family stories with practical advice and support, *Calming Your Anxious Child* teaches parents and caregivers how to empower their children to overcome their worried thoughts and behaviors. Children who have generalized anxiety, OCD, social anxiety, separation anxiety, phobias, or PTSD can all benefit from Dr. Trainor's method, which also helps parents move from feeling controlled by their child's anxiety to feeling that they are in control of their family's future.

The co-star of *Web Therapy* recounts many of the uproarious parenting adventures he has shared with his partner, discussing such topics as the loss of his own father, potty-training antics and the ways in which becoming a parent has impacted every aspect of his life.
