Mooting is an increasingly important activity in UK law schools. This is because mooting offers students the opportunity to develop advanced analytical, research, drafting and advocacy based skills, which help to improve their general academic achievement and employability profiles. Tangible evidence of these skills is invaluable in a progressively competitive job market. The ideal guide for the first-time mooter, *Preparing to Moot* provides an accessible, systematic and pragmatic approach which demystifies the process. It focuses on analysis, research and argument construction as the foundations for successful advocacy and provides students with a working guide to use alongside moot problems in five popular topic areas: criminal law, contract law, tort law, human rights and the law of equity. Through careful use of annotated examples generated by real students, and expert tips and advice from the authors, the book shows students how to individually analyse, research and construct arguments for various advocate positions, providing a practical and easy-to-follow overview of how to tackle a moot from analysing a problem initially, right up to beginning to advocate.

The end of the last century witnessed two major events in the field of civil justice: the Civil Procedure Rules (CPR) came into force and the Human Rights Act (HRA) gave effect to the European Convention on Human Rights. This volume assesses the effect of the Act and attempts to reconcile the expediency and efficiency essential to modern civil justice with the need for recognition of human dignity and equality inherent to human rights. The book is primarily concerned with the effects of the HRA on civil procedure and, in particular, the effects on the CPR. It examines the view that the new civil procedure regime could be susceptible to HRA challenges. More specifically, the work discusses whether there are differences between the CPR and the ECHR ideas of what constitutes a fair trial or just decision and between their views of proportionality. The study notes the differences between common and civil law and discusses whether there is any coming together with other European systems. This book will be a valuable resource for academics and researchers as well as lawyers and judges with an interest
