What it takes to save the world from extinction. 200 years from now, the world, in the grip of global warming, is eerily like ours, only much worse. The ultra-rich, a.k.a. the One Percenters, live in protected areas while the rest of humanity faces pollution, plagues and early death. The One Percenters are the only ones who can afford all the advances of technology, in particular the exclusive Age Prevention Program (APP) that lets them live their whole life span looking "forever young" till the day they drop dead. Three friends struggling for survival, Lizzie, a young California golf champion, Jamie, an investigative journalist for the *World* and *US Post* and Alice, a lovely Swiss nurse, try to enter the APP. Meanwhile Lizzie's uncle, a determined and ruthless 99 Percenter retired from the military, lurks around, hell-bent on carving a place for himself in the APP. Only two options are open to escape extinction: one, fly to another planet a thousand light years away, pristine and green much like Earth before industrialization - but the so-called "Immortality Trip" is reserved to One Percenters; the other, retreat to Antarctica, the last virgin continent - but it is in the hands of Gary Trude XIII, a Hitlerian-style autocrat. Can Lizzie, Jamie and Alice escape from Gary Trude and join the Immortality Trip? NOTE TO THE READER: This book follows the model of serialized novels and is digitally published in four separate parts, each self-standing. It is however preferable to read them in order and the present book is an omnibus edition that includes all four parts. PART ONE, "Gateway to Forever", explores the costly APP and what it means to belong to it...or remain outside. PART TWO, "The Immortality Trip" is the name given to the project to transport a contingent of One Percenters to the nearest liveable exoplanet and settle it. Will Jamie, Lizzie and Alice be able to board that trip?

Written by the author of the bestselling *"Where Angels Walk"*, this biography tells the compelling story of Loretta Young, successful film and television actress, offering a highly readable profile of a woman who achieved the pinnacle of success while always keeping her priorities--and her God--in focus.

The van was the Lindsay's home during a journey across eleven countries from August 1968 to end of May 1969. Their travels in Scotland, England and Spain are detailed in their first book, *Hungry Hearts*. In this sequel, Ann brings to life the aesthetics of commerce in the marketplaces of France, Italy, Austria, Switzerland, Germany, Belgium, The Netherlands and Denmark. Travelling in the van with a gas burner allowed them to truly eat local: * a casserole of Camarague rice along the Camarague delta * fish soup in Marseille * mortadella ravioli in Bologna * Sachertorte in Vienna * fondue in the Swiss Alps * Black Forest cake in the Black Forest * Brot mit Wurst in Germany * Edam cheese with genever in Edam They slept with a circus troupe in France; under snow drifts in the Alps; beside a panther in Hamburg. Enough memories to keep their hearts forever young. Back in Canada, the van hauled furniture, books and cookware to set up Ann McColl's Kitchen Utensils and Victoriana two months after their return, August 1969, on Dundas Street, London, Ontario.

Forever Young offers a wide-ranging survey of the notion of longevity, from antiquity to the present. The author looks at the many

manifestations of one of humanity's most powerful dreams: the prolongation of life and youth with immortality as a final objective. Using a variety of sources – religion, folk traditions, science, literature and art – the book shows on the one hand the persistence of the human spirit (the desire for longevity is revealed as an extremely stable archetype throughout history) and on the other, the innovations specific to each period or culture due to the progress of science and differing ideologies and attitudes. Nowadays, prolonging life and youth has become a major goal of society due to a combination of several factors: the spectacular increase in life expectancy; the advances of science and especially genetics; and, finally, the decline of religious belief in life after death, emphasizing the only remaining certainty – corporeal life. The author, a specialist in mythology and imagination, approaches his subject in an accessible and engaging way.

The excessive worship of adolescence and its social empowerment by adult institutions is the deeply rooted cause of a serious cultural malaise. So argues semiotician Marcel Danesi in *Forever Young*, an unforgiving and controversial look at modern culture's incessant drive to create a 'teen-aging' of adult life. Written for the general reader and based on five year's worth of interviews with over 200 adolescents and their parents, Danesi begins by asserting that one of the early causes of this crystallization of adolescence as an age category can be traced back to theories of psychology at the turn of the twentieth century. Since then, the psychological view of adolescence as a stressful period of adjustment has become a self-fulfilling prophecy. This, in tandem with the devaluation of the family by the media and society at large, has led to a maturity gap - a fissure in family dynamics that is eagerly and ably exploited by the mass media. Unlike many academic digressions into the malaise of modern culture, *Forever Young* provides concrete answers on how the 'forever young syndrome' can be addressed. One solution is to dispel the myth that experts and professionals are the people best equipped to give advice on raising children. The second is to recognize the value of family, in all its different combinations, as the primary institution of child-rearing. The third is to challenge the pervasive notion that teen culture is a sophisticated endeavour - that, for example, pop music can claim to have produced some of the best musical art in the world, surpassing Mozart or Bach. By laying bare the misguided tenets that have brought about, and continue to promote, a 'forever young' mentality, Marcel Danesi demonstrates that the 'teen-aging' of culture has come about because it is, simply put, good for business. Teen tastes have achieved cultural supremacy because the western economic system requires a conformist and easily manipulated market, and has thus joined forces with the media-entertainment oligarchy to promote a deterministic 'forever young' market.

*Kris Kristofferson *Leonard Cohen *Bob Dylan *Marijohn Wilkin *Joe Wise *Tom T. Hall *W.B. Yeats *T.S. Eliot *Longfellow *Gerard Manley Hopkins *Emily Dickinson *Shakespeare Poetry first rented a room in my mind in English literature class at Borromeo Seminary in Cleveland. A Christian understanding serves as a flashlight in a cave: You can see more. The attributes of Christ - truth, beauty, and goodness - shine forever and keep verses alive. That's why poems live on. Songs continue to occupy my mind. I view most songs as poetry set to music. I greatly admire people who write poems and songs. Some create both lyrics and music like embroidery, and their works greatly affect others. I desired my favorite songwriters and poets to be in one book. I suspect someday Kris Kristofferson, Leonard Cohen, William Butler Yeats, Henry Wadsworth Longfellow, and many others will be best friends. They all toiled in God's vineyard, producing good fruit. I'm hoping this book gets published before they all pass, so they can enjoy this tribute to their "fine wine." Poets and songwriters who speak to those searching for truth take time to admire beauty, and are uplifted by acts of goodness. Poetry and songs were meant to be enjoyed, recited, and sung throughout the day. One can experience encounters with God through such works. These show the best side of mankind.

She was the world's oldest virgin... But that didn't mean Kathleen Miles had no feelings. Or desires. Especially when this pureblood city woman came face-to-face with the most captivating cowboy this side of Hopkins Gulch. When warm, hard Evan Atkins looked at Kathleen, she felt like someone else. Someone who was daring. Passionate. Experienced. Yes, she was sure this dangerous man with the deep voice could convince her of anything...even becoming his wife and the mother of his baby son. But how could the bride convince the groom she wanted to be his—body and soul?

In a small university town, two old friends meet for the first time in twenty years. Father Michael, the priest with the leather jacket and the rock'n'roll guitar... and Jimmy, the cynical visiting academic. Twenty years ago, they'd played their music together and dreamed of making the big time. Now, together again by chance, the old cycle moves round once more. Mary, attractive available and in need of a man, draws them both to her. Just as another girl had drawn them both, so many years ago, when she cut the wounds of lost innocence and cruel betrayal that are about to open once again...

Wonder about the world of our great-great-grandchildren? This is the third episode of *FOREVER YOUNG*, a climate fiction/hard science fiction novel in 4 episodes set 200 years from now. Life on earth is headed for extinction and society is divided between the ultra-rich and the rest who suffer the full onslaught of climate change and pollution. Part One explores the costly Age Prevention Programme (APP) and what it means to belong to it...or remain outside – for Alice, a lovely Swiss nurse, for ambitious Lizzie, a talented golf player, the descendant of the mythical Tiger Woods, and for adventurous Jamie, a brilliant reporter for the *World* and *US Post*. Part Two, "The Immortality Trip" is the name given to the project to transport a contingent of One Percenters to the nearest liveable exoplanet and settle it. Will Jamie, Lizzie and Alice be able to board that trip? Part Three, "The Hibernation Party" introduces the other option opened to One Percenters to survive extinction: take refuge on Antarctica, the last virgin continent. Jamie discovers the dangers of this option when Gary Trude, the head of the Hibernation Party, a despot with Hitler's dangerous ambitions, threatens him and his friends. Can they escape from Gary Trude? The novel - classified as both a "hard" science fiction and a climate fiction novel - interweaves several plot lines. The first chronicles the love triangle between Alice, Lizzie, and Jamie. The

second covers the only two options left to save humanity, both reserved to One Percenters: one, escape to another pristine planet, a thousand light years away; the other, retreat to Antarctica, the last virgin continent. A ruthless rivalry develops between those who aim to stay on Earth and those bent on escaping to another world. The third follows the murderous attempts of one determined 99 Percenter, Ernie, a retired Blue Beret who is hell-bent on carving a place for himself in the Age Prevention Program. NOTE TO THE READER: This book follows the model of serialized novels, like Hugh Howey's best-selling WOOL , and is published in four separate parts, each self-standing. It is however preferable to read them in order as follows: Part One: Gateway to Forever Part Two: The Immortality Trip Part Three: The Hibernation Party Part Four: The Longevity Gene An omnibus edition with all four parts also exists.
